

## TORINO MEETING 2024

Future of ALCL: Novel Therapies, Origins, Bio-Markers  
and Mechanism of resistance

1994-2024: ALK oncogene 30-year anniversary

September 18th & 19th 2024

Molecular Biotechnology Center "Guido Tarone" Darwin Room, Via Nizza 52, 10126 Torino, Italy

### Wednesday, 18th September 2024 - DAY ONE

12:30 – 13:00	Arrival and Light Lunch	
13:30 – 14:00	Opening Remarks and Organization Details	<b>Suzanne Turner</b> - University of Cambridge, UK and Masaryk University, Brno, Czech Republic <b>Roberto Chiarle and Claudia Voena</b> - University of Torino, Italy
14:00 – 14:50	Plenary Talk - "Pediatric precision cancer medicine trials - Facing cancer complexity"	<b>Birgit Geoerger</b> - Gustave Roussy, Université Paris-Saclay, Villejuif, France
14:50 – 15:10	Investigating the role of the T cell receptor (TCR) in ALCL pathogenesis towards the development of an innovative therapeutic approach	<b>Carla Vasquez-Amos</b> - University of Cambridge, United Kingdom
15:10 – 15:30	Investigating the role of STAT5 in ALCL pathogenesis	<b>Stefania Massari</b> - MedUni Vienna/University, Hospital Vienna, Austria
15:30 – 15:50	Integration of clonal evolution and single-cell mutational and expression profiles in ALK+ ALCL	<b>Julia Montague</b> - University of Milano-Bicocca, Italy
15:50 – 16:10	Establishment of ALK-autoantibodies, T cell responses against ALK and cell-free DNA as biomarkers and for response monitoring of patients with ALCL	<b>Will Shepherd</b> - University Clinic Hamburg-Eppendorf, Germany
16:10 – 16:30	Coffee Break ☕	
16:30 – 17:00	"JAK-family gene fusions in anaplastic large cell lymphoma"	<b>Megan Lim</b> - Memorial Sloan Kettering Cancer Center, New York, USA
17:00 – 17:20	Epigenetics of ALCL Drug Resistance	<b>Gerda Egger and Katarina Misura</b> - MedUni Vienna/University, Hospital Vienna, Austria
17:20 – 17:40	Development of a TME-based Immunoscore as a prognostic and predictive biomarker for ALCL	<b>Lena Illert and Magdalena Krsiř</b> - University Clinic, Munich, Germany
17:40 – 18:10	Targeting TUBGCP2 with a CAPE derivative as novel therapeutic strategy for Anaplastic Large Cell Lymphoma	<b>Olaf Merkel</b> - MedUni Vienna/University, Hospital Vienna, Austria
	STAT1 as tumor suppressor and potential therapy target in Anaplastic Large Cell Lymphoma	<b>Nicola Mora</b> - MedUni Vienna/University, Hospital Vienna, Austria
18:30 – 19:45 Optional	Torino Walking Tour City Centre from Piazza Castello	
19:45 – 22:00	Aperitivo-cena at the Accademia delle Scienze di Torino	<b>Via Accademia delle Scienze, 6</b> <a href="https://www.accademiadellescienze.it/home">https://www.accademiadellescienze.it/home</a>

## TORINO MEETING 2024

Future of ALCL: Novel Therapies, Origins, Bio-Markers  
and Mechanism of resistance

**1994-2024: ALK oncogene 30-year anniversary**

**September 18th & 19th 2024**

Molecular Biotechnology Center "Guido Tarone" Darwin Room, Via Nizza 52, 10126 Torino, Italy

### Thursday, 19th September 2024 - DAY TWO

9:00 – 9:30	<b>"Plasticity and reprogramming capacity of malignant lymphocytes: the underlying mechanisms and translational implications"</b>	<b>Mariusz Wasik</b> - Fox Chase Cancer Center, Philadelphia, USA
9:30 – 9:50	<b>Validation of bypass mechanisms of resistance to ALK TKIs in ALCL</b>	<b>Enrique Abarca Ríos</b> - Masaryk University, Brno, Czech Republic
9:50 – 10:10	<b>Identification of New Biomarkers of Disease Resistance in ALCL of childhood: the role of exosomes</b>	<b>Rebekka Salzmann</b> - University of Padova, Italy
10:10 – 10:30	<b>Nanotherapies to eradicate T cell lymphoma persistence</b>	<b>Dominik-Laurentius Candea</b> - University of Torino, Italy
10:30 – 11:10	<b>Plenary Talk - "Targeting the epitranscriptome in cancer"</b>	<b>Isaia Barbieri</b> - University of Torino, Italy
11:10 – 11:30	<b>Coffee Break</b> ☕	
11:30 – 12:20	<b>Plenary Talk - "Understanding ALK in neuroblastoma - insights from model systems"</b>	<b>Ruth Palmer</b> - University of Gothenburg, Sweden
12:20 – 12:35	<b>Closing Remarks</b>	<b>Suzanne Turner</b> - University of Cambridge, UK and Masaryk University, Brno, Czech Republic <b>Roberto Chiarle and Claudia Voena</b> - University of Torino, Italy
12:35 – 13:15	<b>Organizational Remarks</b> <b>Restricted session for members of project boards</b>	<b>Suzanne Turner</b> - University of Cambridge, UK and Masaryk University, Brno, Czech Republic
13:15 – 14:15	<b>Farewell Lunch</b> 🍴	

**Molecular Biotechnology Center «Guido Tarone»**  
Darwin room  
Via Nizza 52, 10126 Torino  
Metro Station «Nizza» or «Dante»

### Organising Committee

**Claudia Voena, Roberto Chiarle**  
University of Torino, Italy

**Suzanne Turner**  
University of Cambridge, United Kingdom and  
Masaryk University, Brno, Czech Republic
